**SUPPLEMENTAL AMENDMENT**

Dear Sir / Madam:

Enclosed is an AMENDMENT under 37 CFR 1.312, after Notice of Allowance.

A review of this long case revealed substantial errors that need correction before publication. In particular, the applicant felt that the drawing were not up the new standards required by the USPTO. The draftmanship has been substantially improved throughout, in just about all of the 282 Figures.

Attached is:  
The Amendment;  
A clean copy of the text  
A clean copy of the revised drawings.

If it is felt that any of the above changes are inappropriate, please let me know as soon as possible so that any needed adjustments can be made.

Please debit my patent office deposit account number **501 334** if any fees should be due.

Respectfully submitted,

Mitja Victor Hinderks.

Sole inventor, applicant and power-of-attorney of record.

Sir / Madam:

**AMENDMENT** under 37 CFR 1.312

**GENERAL:**

*In preparing this amendment, the applicant attests and warrants that no new material has been added. All changes to drawings, text and claims submitted herein are solely for the purposes of clarification or to correct grammatical and other errors, including incorrect Figure numbers, missing or incorrect feature identifier numbers, etc.*

**IN THE TEXT:**

*In the amendments listed hereunder, deletions are shown between brackets and / or struck out, additions are shown underlined.*

*The page numbers referred to are those of the text as amended 8<sup>th</sup> December 2004. (The document does not have a header; the date is only given once, at the end of the disclosure, before the Abstract.)*

*Where applicable, change "uncooled" to 'un-cooled'; "intermember" to 'inter-member'; "preferred embodiment" to 'selected embodiment'.*

*Amend the four paragraphs beginning "An important concept involves . . ." on page 11:*

*An important concept involves the substitution of conventional engine elements generally*
